

**Inspire local students.
Partner with a school.**

School Partnership

Our School Partnership Program connects businesses with local schools to create mutually beneficial relationships. Companies provide the volunteer and financial resources to support JA programs in at least 10 classrooms at a single school. The benefits of this generous commitment include:

- Creating a deep, meaningful connection to the community through involvement at a local school
- Providing professional development opportunities for your employees, who will utilize leadership and presentation skills in facilitating JA programming
- Giving employees the chance to be role models for local students
- An opportunity to support the school in other JA programming (i.e., JA BizTown, JA Finance Park, etc.)

What's Involved

School partners agree to:

- Support at least 10 classrooms at a single school
- Finance all JA program materials, training, supplies, staffing and evaluation costs (\$500 per classroom)
- Provide all classroom volunteers
- Appoint a liaison to work with JA staff to coordinate the activities between the company and the school

Classroom Partnership

We also welcome partnerships with businesses on a slightly smaller scale. Businesses may choose to fund and volunteer in multiple classes at a school below the 10 classroom threshold of a school partnership. This level of participation still provides a valuable experience for students and company employees. Classroom Partnership companies provide volunteer involvement at \$500 per class supported.

Next Steps

School and classroom partnerships are currently being formed for the 2016-17 school year and beyond. Learn how your organization can get started:
