Reports

Class #12508

Username	Password	First Name	Last Name	

[Create New Student](#)
[Create Multiple Students at Once](#)
[Edit/Upload Multiple Students at Once](#)
[Username Requirements](#)
[Password Requirements](#)

Step 5: Enter in requested information.

It's recommended to make the passwords as generic as possible – the same password can be used multiple times. Also, keep in mind that once you use a username you will not be able to use it again – we have found that using student ID numbers works well because they are so unique.

Create a New Student

Use the form below to create a the new account. Some important thing to keep in mind:

- Fields that are marked with an asterisk are required.
- [Click here](#) for the requirements for usernames and passwords.
