

Entrepreneurship Pathway

Why is entrepreneurship education important?

58% of teens have considered starting a business, but only **5%** have actually done it¹

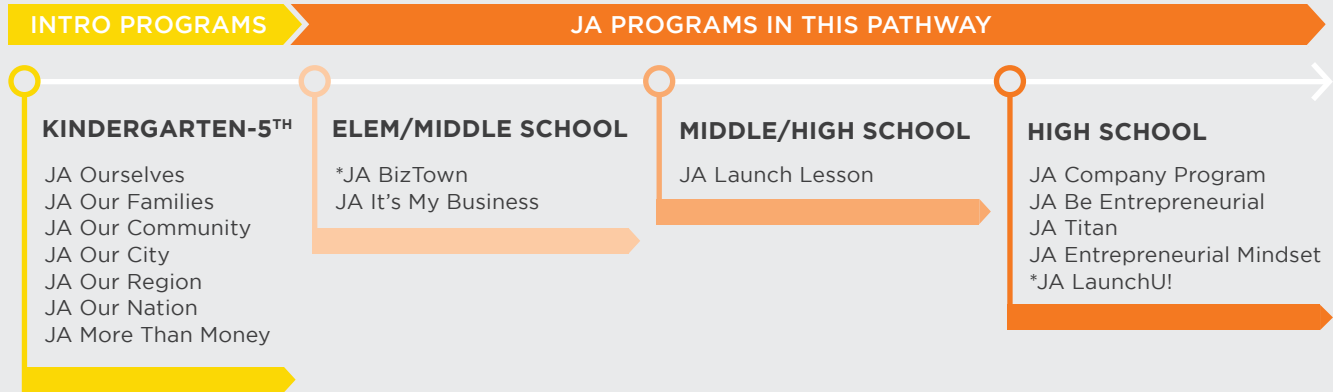

The number of new entrepreneurs in the U.S. is decreasing. Between 1996 and 2015, the percentage of new entrepreneurs ages 20-34 decreased from **34.4% to 25%**²

What is our plan?

Ensure that students graduate from high school with an entrepreneurial mindset so that we can cultivate a pipeline of entrepreneurs to strengthen our economy and our workforce.

Junior Achievement's Pathway to Entrepreneurial Success

*Program held in the Junior Achievement James R. and Patricia Hemak Experiential Learning Center

Proven Results

JA alumni are 143% more likely to be involved in entrepreneurial activities than those who did not have JA.³

55% of JA alumni credit Junior Achievement with teaching them how a business works.³

76% of JA alumni say they have the skills to start their own business, as opposed to 41% of those who did not have JA.³

"Thanks to Junior Achievement, I have fallen in love with raw entrepreneurship, a passion that I plan to pursue in college and in my career."

- Brandon Arneson, JA student (12th grade)
